**HOW TO BE
YOUR BEST**

PROWESS THROUGH PROCESS

INFORMOTION is an innovative, international professional services organisation specialising in the design and implementation of modern information management, collaboration and governance solutions – on-premises, in the cloud or on a hybrid basis.

INFORMOTION is information in motion – active and dynamic, but controlled and relevant.

Built on world-class platforms such as EncompaaS, Micro Focus Content Manager, Ephesoft Transact, Microsoft O365 and SharePoint, we can help you map and execute your digital transformation strategy. It's about peak achievement, through the rigorous disciplining of dynamic data.

STOP THE WHIRL!

Operating in an ever-changing regulatory landscape presents major information management challenges. In meeting your

compliance obligations, even knowing where to start can be a difficult task. You might have an idea of where you need to go, but not how to get there. INFORMOTION can give you continuity and a clear path forward.

The majority of our consultants have worked in the information management and governance (IM&G) space for more than 20 years. We have a deep understanding of business and government processes and the regulatory frameworks that

constrain major enterprises. Our product knowledge and compliance experience is second-to-none.

GLOBAL REACH

With operations in Australia, the USA and the UK, INFORMOTION is a certified Micro Focus Platinum Partner and global Content Manager implementation leader. We are also an accredited Microsoft Enterprise Business Partner, LiveTiles Alliance Partner, Ephesoft Platinum Partner and EncompaaS Diamond Partner.

DIGITAL INFORMATION MANAGEMENT. DIM, IT ISN'T.

We may be seen as an Information Technology company, but at INFORMATION that's not really IT. Our technical and business consulting skills are much broader than that and can complement your in-house resources across a very wide range of needs. These include strategy development, Machinery of Government changes, custom integrations and Hosted Managed Services.

Head in the cloud.
Feet on the ground.

SHINING A LIGHT

Our knowledge will augment yours – but our first aim is to develop a detailed understanding of your own individual situation and needs, so we can reveal new perspectives and solutions. And our teams always achieve this. They're very bright people who are outcomes focused.

PEOPLE WHO LIKE PEOPLE
INFORMATION takes pride in our ability to establish and nurture the kind of collaborative customer relationships you need to better service your own customers. This doesn't mean downsizing your department. It's not about kills – it's about skills. Our aims are to enhance your departmental productivity and to optimise the value of your people.

You need to meet your compliance obligations while delivering benefits to a modern workforce who are increasingly mobile. And that's what we're dedicated to helping you achieve.

If you build solutions that don't fundamentally work the way people do, you have a broken solution."

- Jesse Todd, INFORMATION CEO

THE WHOLE KIT AND CABOODLE

INFORMATION'S range of professional services and productivity tools combine to deliver end-to-end information management solutions that work.

Our compliance, collaboration, capture and automation solutions provide greater business value and security for all your stakeholders.

WE LOOK AT THE BIG PICTURE

Health Checks – pre-emptive functional and technical review of your Content Manager system to get the most from your investment

Support Services – Pre-emptive maintenance routines to give you complete peace of mind, knowing you're fully supported should issues arise.

O365 & SharePoint Readiness Assessment – align your O365 & SP architecture to your governance framework in Content Manager for a successful integration

Hosted Managed – simplify your transition to the cloud with flexible hosted managed options for Content Manager

Fusion – Our integration engine makes it easier to connect Content Manager to line of business applications

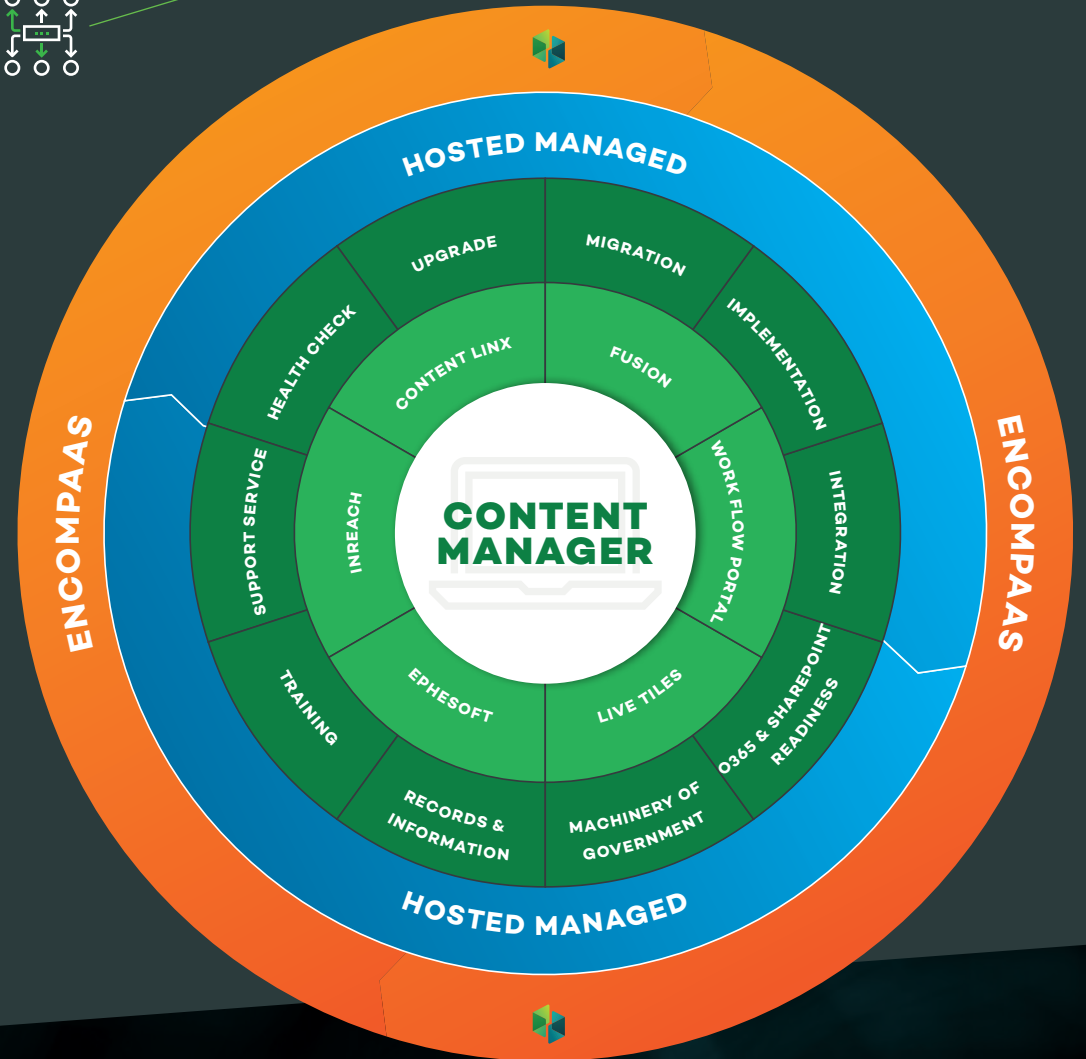

InReach – streamlines and controls your electronic approval process

Workflow Portal – simplifies the deployment of complex workflow processes

Content Linx – simplifies access to and sharing of controlled documents using persistent links

Ephesoft Connector – automates the digitisation and capture of content and forms into Content Manager

LiveTiles Intelligent Workplace - Increase productivity and build compelling, personalised user experiences on Microsoft 365 with easy drag-and-drop, low-code simplicity.

ENCOMPAAAS. THE POWER TO PERFORM.

Energised performance through proactive compliance

EncompaaS is a SaaS compliance platform that delivers intelligent, automated governance across all your on-premises content repositories and cloud applications and services. EncompaaS will allow you to better understand and manage your enterprise content, adopt new cloud solutions rapidly, support innovation without risk, and make critical business decisions safely and compliantly.

As a Diamond EncompaaS Partner, INFORMATION knows every facet. Our close-knit team of world-class compliance experts works in concert with our partners to leverage the EncompaaS platform and a suite of market-leading software tools to help modernise, automate and govern your organisation. **Be transformed!**
